Profile

I am a Front-end Web Developer based out of Montreal. I am independently motivated, and committed to being an effective team member with the initiative to succeed in any environment.

Experience

Web Developer, Jonar; Montreal, QC. March 2019-Present

Upon moving to Montreal I took a job with Jonar, a small software company specializing in ERP software. In this role I designed and built a new Wordpress blog for the company, and spearheaded the launch of a product website built using Gatsby/ReactJS (www.paragon-erp.com).

Owner/Design Lead, Freedom Gopher Web Development; Saskatoon, SK. July 2017-March 2019

Shortly after obtaining a Computer Science degree from the University of Saskatchewan, I started a small company doing freelance web design/development work. Most of these projects were focused on improving or establishing an online presence for small and medium sized companies.

Audio Technician, University of Saskatchewan CCDE; Saskatoon, SK – 2014-2017

In this role I managed the audio in televised lectures broadcast to students in distance learning centres across the province. I handled the audio mixing board for the duration of lectures and was responsible for testing/maintaining equipment. Over the course of this role I gained significant experience troubleshooting technical problems in a live broadcast environment.

Education

University of Saskatchewan; Saskatoon SK – B.A. Hon Philosophy, 2016, B.Sc. Computer Science, 2017.

Development Skills

Significant experience with HTML/CSS/JS, React, Bootstrap, and jQuery. Solid grasp of OO development and Git. Basic fluency in SQL, C++, and Java. Basic familiarity with Jira.

Design Skills

Proficient in WordPress (and several other CMS's), experience in UI/UX design, Photoshop, Premier, After Effects, InDesign, Audio Production/Mastering.
